Fore- Word

Throughout the years that I have been in the paint and colour industry, one thing's certain: change. As culture changes, new trends arise and people ebb and flow with these changes as well. Granted, lifestyle patterns and taste are also consistently evolving; hence, when we talk about colours, palettes also move with the waves of change. This is the foundation of Trend Beyond Colours which offers a compendium of major colour trends that will influence living spaces and marketplace in 2015/2016. With this, Nippon Paint truly appreciates the forecast results that were recently revealed at the Nippon Paint Colour Chromazome Workshop, an event which beautifully 'delivered' the birth of a series of wonderful Asian colour palettes by Asian professionals.

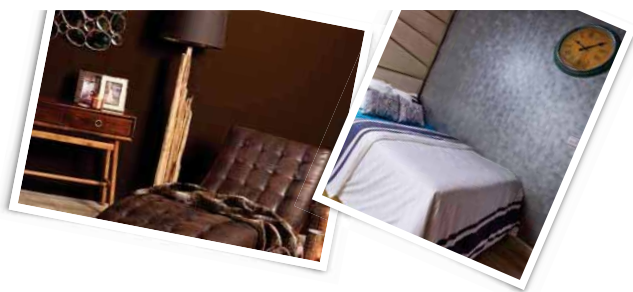

Containing nine key trend palettes, Trend Beyond Colours arises from three themes; "Sacred Love", "Just Me", and "Revo-Evolution", all of which are translated into unique decorative coatings for the Asia market. Each colour is derived carefully from the way we live, breathe fashion, while creating awareness that colours go far beyond designer collections and artful concepts. Every colour has its own story. We've analyzed how behaviour is influenced by colours, fashion, retail performance, lifestyle trends and culture influences and digested them into easy-to-use colour inspirations.

Our passion for colours constantly propels us on to the newest ideas, while our collective experience gives us a guiding instinct for what consumers love. And as trends emerge throughout the season, we believe colours will gain more popularity in our living spaces as well. Above all, enjoy the journey of colours with us and we hope that this beautiful book would serve as a wonderful inspiration for you.

Intro- duction

Colours add beauty, enhance spaces and improve moods. Colours change lives and go beyond just shades and hues. With more than 129 years of experience and expertise in colours and paint under our belt, Nippon Paint is equated with high quality and innovative product breakthroughs, making us the number one paint brand in the Asia Pacific region. Today, Nippon Paint continues to push the boundaries of paint and colours, inspiring us to re-think paint and re-create possibilities. This said, we are proud to present "Nippon Paint Trend Beyond Colours 2015/16" to exemplify our commitment to offer creative and sustainable solutions for the future.

This year, 3 colour stories are brought to the spotlight, represented by 9 key colours to illustrate the ideals and inspiration behind these colour themes. To showcase how trendy colours can be effectively used to turn ordinary spaces into spectacular masterpieces, there are also a plethora of palettes handpicked by industry professionals such as interior designers and architects from the Asia Pacific region. Rest assured, the colours you see in this book can be turned into reality through the use of paint.

THE COLOUR STORIES

Sacred Love

We love and appreciate Planet Earth. Amidst our diminishing resources such as quality air, gold, oils and water, we need to find ways to protect the environment. In Asia, this is more pronounced with many ongoing developments, resulting in pollution; for instance a high level of smog. Sacred Love is a calling for sustainability and to conserve our natural resources so that our community can enjoy nature and live a balanced and healthy life. Within this theme, three colours are selected: **Persian Blue NP BGG 1588T**, **Dinosaur Gray NP N 2042P** and **Esparina NP BGG 1750A** to exemplify the beauty of nature and our responsibility to protect and preserve it.

Just Me :)

Who am I? Individualism is fast becoming an identity of our generation. Mainly influenced by Gen-Y, we are now looking to stand out and express ourselves in individualistic ways. This is the era of young entrepreneurs where "Love what you do and do what you love" - the lines between passion and profession are merging into one. Here's where technology continues to impact us by ensuring that we stay socially connected as we aim for individuality.

Yellow Jasmine NP YO 1100D, **Pretty Box NP R 1321P** and **Carrothead NP AC 2065A** bring forth this theme in bright and inspiring ways that beckon us to live life to the fullest and be who we want to be.

Revo-Evolution

Online or real life? Employed or entrepreneurship? These questions signify the rising trend of "Revo-Evolution" which revolves around connecting with the younger generation as we manage generation gaps. We are presented with many needs, wants and choices yet struggle to have more time and money to attend to all of them. This theme also questions our age - how old is old? To represent these issues, three colours are in the forefront: **Blue Award NP PB 1520D**, **Painted Frame NP N 1904A** and **Olde Rose NP N 1893P** inspire positivity and hope while offering a touch of sophistication, trustworthiness and elegance - everything we need to adapt to a changing world.

Inspirations, insights and creative ideas from different sources serve as the foundation for the three inspired themes and nine unique colours of Trend Beyond Colours 2015/16. In this video, see how they are created.

IN THE HEART OF NATURE

Nature expeditions are fine, for a while, but we still remain urban dwellers at heart. A touch of nature in our lives will remain important, as long as it's comfortable. Esparina NP BGG 1750A exemplifies this; this colour contains natural resources in its heart, reminding us of the characteristics of nature that can be applied into city living. It is about creating green breathing spots in our urban lifestyles, giving us a safe environment to escape from technology, so that we can switch off, rewind and renew.

We stay in trend with what is current, but we also tap into our higher level of intelligence and spiritual perspectives to live a life of wisdom. This colour offers an idealistic tone, enhancing self-expression and our ability to communicate our needs and wants while inspiring higher ideals.

NEUTRAL BEAUTY

O

lde Rose NP N 1893P is a beautiful shade that represents our search for admiration and respect. At times, we would like to stand on the fence to be neutral and staying accepted, and that's fine. But more significantly, we must embrace the spirit of change and see the beauty in everyone without discrimination. In all, this colour takes the stage to carry this message about what real beauty means. There is also a touch of modernity to this colour, reminding us literally to stop to smell the roses amidst our hectic world.

Light pink is associated with gentleness and comfort, which makes Olde Rose NP N 1893P a perfect backdrop colour for spaces that require a dose of lush coziness - for instance, the bedrooms or family rooms. Multiple shades of pink and light purple or other pastels used together will maintain the soft, delicate and playful nature of Olde Rose. You can also add strength to this colour with darker shades of pinks and burgundy.
