**NIPPON
PAINT**

FOREWORD

WELCOME

We're excited to present the fourth edition of Trend Beyond Colours for 2024-25 in a continuing collaboration between **Nippon Paint** and **Colour Hive**.

Interpreting the influences that will inspire future trends is an intricate balance of imagination, creativity and science. Our previous edition, RESET was a post-pandemic desire for a 'full stop and restart'. Now, it's time to **AWAKEN**, move forward, open our eyes and see ourselves and the world around us with a refreshed attitude. It's time to rediscover the **power of quiet**, the **beauty in harmony**, the **strength in renewal** and the **joy of self-expression**.

The central theme for Trend Beyond Colours 2024-25 sees us embracing this fresh mindset.

We're considering how we can **live better**, **feel better** and **be better**, both as individuals and as part of a global community. This is more than simply moving forward; this is waking up to a new dawn and **moving forward with optimism and purpose**.

In this book we'll explore four influences and trends that express diverse elements of our central theme, and for each of these you'll be introduced to a key colour that encapsulates the essence of the story.

Whether it be in the home, a commercial environment or a community space, as you turn each page, we hope you **experience the power of colour** to express your feelings and create positive moods.
